Caution Regarding Forward-Looking Statements

In this document and in other documents filed with Canadian regulatory authorities or in other communications, we may from time to time make written or oral forward-looking statements within the meaning of applicable securities legislation. Forward-looking statements include, but are not limited to, statements regarding our business plan and financial objectives including statements contained in our 2017 Annual Report under the headings "Outlook" and "Off-Balance Sheet Arrangements - Securitization Activities". The forward-looking statements contained in this document are used to assist readers in obtaining a better understanding of our financial position and the results of operations as at and for the periods ended on the dates presented and may not be appropriate for other purposes. Forward-looking statements typically use the conditional, as well as words such as prospect, believe, estimate, forecast, project, expect, anticipate, plan, may, should, could and would, or the negative of these terms, variations thereof or similar terminology.

By their very nature, forward-looking statements are based on assumptions and involve inherent risks and uncertainties, both general and specific in nature. It is therefore possible that the forecasts, projections and other forward-looking statements will not be achieved or will prove to be inaccurate. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we can give no assurances that these expectations will prove to be correct. Certain important assumptions by us in making forward-looking statements include, but are not limited to: our ability to execute our transformation plan and strategy; the expectation of regulatory stability; the continued favourable economic conditions; our ability to maintain sufficient liquidity and capital resources; the absence of material unfavorable changes in competition, market conditions or in government monetary, fiscal and economic policies; the maintenance of credit ratings and our assumption that the in-depth review of the branch-underwritten mortgages described under the heading "Off-Balance Sheet Arrangements - Securitization Activities - Review of Mortgage Portfolios" of our 2017 Annual Report and in this document, will reveal a level of ineligible loans with documentation issues in line with the level discovered through the limited sample audit. See also "How the Bank Will Measure its Performance - Key assumptions supporting the Bank's medium-term objectives" in our 2017 Annual Report.

We caution readers against placing undue reliance on forward-looking statements when making decisions, as the actual results could differ considerably from the opinions, plans, objectives, expectations, forecasts, estimates and intentions expressed in such forward-looking statements due to various material factors. Among other things, these factors include: changes in capital market conditions, changes in government monetary, fiscal and economic policies, changes in interest rates, inflation levels and general economic conditions, legislative and regulatory developments, changes in competition, modifications to credit ratings, levels of branch-underwritten ineligible loans with documentation issues being in excess of levels identified during sample file audits or other related assumptions pertaining to the conduit requirements, scarcity of human resources, developments with respect to labour relations, as well as developments in the technological environment. Furthermore, these factors include the ability to execute our transformation plan and in particular the successful reorganization of retail branches, the modernization of the core banking system and the adoption of the Advanced Internal Ratings-Based Approach to credit risk (the AIRB Approach).

With respect to the anticipated benefits from the acquisition of Northpoint Commercial Finance ("NCF") and statements with regards to this transaction being accretive to earnings, such factors also include, but are not limited to: the ability to promptly and effectively integrate the businesses, reputational risks and the reaction of our and NCF's customers to the transaction; the failure to realize, in the timeframe anticipated or at all, the anticipated benefits and synergies of the acquisition of NCF; our limited experience in the U.S. market and in inventory financing; and diversion of management time on acquisition-related issues.

With respect to the anticipated benefits from the acquisition of CIT Canada and statements with regards to this transaction being accretive to earnings, such factors also include, but are not limited to: the ability to realize synergies in the anticipated time frame, the ability to promptly and effectively integrate the businesses, and diversion of management time on integration-related issues.

We further caution that the foregoing list of factors is not exhaustive. For more information on the risks, uncertainties and assumptions that would cause our actual results to differ from current expectations, please also refer to the "Risk Appetite and Risk Management Framework" on page 44 of our Management's Discussion and Analysis as contained in our 2017 Annual Report, as well as to other public filings available at www.sedar.com.

We do not undertake to update any forward-looking statements, whether oral or written, made by us or on our behalf, except to the extent required by securities regulations.

NON-GAAP MEASURES

Management uses both generally accepted accounting principles (GAAP) and certain non-GAAP measures to assess the Bank's performance. The Bank's non-GAAP measures presented throughout this document exclude the effect of certain amounts designated as adjusting items due to their nature or significance. These non-GAAP measures are considered useful to readers in obtaining a better understanding of how management analyzes the Bank's results and in assessing underlying business performance and related trends. Non-GAAP measures do not have any standardized meaning prescribed by GAAP and are unlikely to be comparable to any similar measures presented by other issuers.

Mortgage Review – Update

Third Party Purchaser (TPP)

B2B Bank underwritten mortgages

- LB repurchased \$90M of mortgages (\$89M with documentation issues and \$1M that were inadvertently sold) in Q1 2018
- TPP completed a confirmatory audit and no further repurchases are required
- \$17M of the \$40M indemnity cash reserve will be released to LB. Remainder will be kept as additional credit enhancement and remitted to LB over time as mortgages amortize

➤ **Situation is resolved**

Branch network underwritten mortgages

- LB repurchased \$90M of inadvertently sold mortgages in Q1 2018, consequently this situation has been resolved
- LB is conducting a review of 1,900 of 9,500 mortgages - expected to be completed towards the end of Q2 2018 at which time the TPP will perform a confirmatory audit
- LB conducted a limited sample review and through extrapolation estimated ~ \$124M of ineligible loans with documentation issues that may need to be repurchased
- LB provided a \$61M cash reserve deposit, the release of which is subject to the repurchase of ineligible loans and confirmatory audits

➤ **Situation is progressing well**

CMHC (Previously referred to as the “Other Third Party Purchaser”)

- LB repurchased \$88M of inadvertently insured and sold mortgages in Q2 2018
 - After discussions with CMHC, LB not required to perform a full review of the mortgages sold to the CMHC securitization programs nor make material repurchases
 - We continue to work with CMHC on reviewing and ensuring solid controls are in place, in addition to our continued engagement in the normal course audits by CMHC from time to time
- **Securitization program remains available to LB and LB continues to securitize mortgage loans**

We are confident that the enhanced quality control and underwriting procedures implemented since November 1, 2017, will prove to be satisfactory

(1) Based on information as at September 30, 2017 and as reported in our 2017 Annual Report dated December 4, 2017, excluding the impact of repurchases to both third parties, and new securitizations to CMHC. As at January 31, 2018, mortgage loans sold to the TPP by B2B Bank and the branch network totaled \$535 million and \$994 million respectively, the variations from what was previously disclosed are due net repayments and the aforementioned repurchases. As at January 31, 2018 mortgage loans sold to CMHC totaled \$5,118 million the variation from what was previously disclosed is due to new securitizations and net repayments.

(2) Repurchased in the first quarter of 2018.

(3) Repurchased in the second quarter of 2018.

(4) The \$124 million in branch-originated ineligible mortgages sold to the TPP is an estimate based on extrapolating the results of a limited sample review.

Net Interest Income	\$ 178.6	1 %	16 %
Other Income	88.4	- 4 %	0 %
Total Revenue	\$ 267.0	0 %	10 %

Total Revenue

(\$ millions)

Total Revenue: up \$25.4M Y/Y and relatively stable Q/Q

- Net interest income: up \$2.4M Q/Q mainly due to volume growth in the commercial loan portfolio, and the recent increases in interest rates
- Net interest income: up \$24.9M Y/Y, due to strong volume growth in the commercial loan portfolios, both organic and from acquisitions, as well as from the higher margins earned on these loans
- Other income: down \$3.4M Q/Q mainly due to the gain on sale of our participation in Verico Financial Group (Verico) recorded in Q4/17

Net Interest Margin (NIM)

Net Interest Margin

(on average earning assets)

- NIM Q1/18 vs Q4/17
 - 2 bps increase mainly driven by NCF volume growth and recent increases in interest rates, partly offset by higher liquidity
- NIM Q1/18 vs Q1/17
 - 11 bps increase driven by the higher NCF proportion of higher-yielding loans to business customers

Average Earning Assets

(\$ billions)

- Average earning assets increased 9% Y/Y:
 - Organic growth in residential mortgage loans through independent brokers and advisors up 19% Y/Y
 - Loans to business customers up 22% Y/Y including acquisition of Northpoint in Q4/17

Other Income

Other Income (\$ millions)	Q1/18	Q/Q	Y/Y
Deposit Service Charges	\$ 13.0	- 5 %	- 9 %
Lending Fees	16.1	- 9 %	7 %

Other ⁽¹⁾	8.1	- 40 %	- 12 %
	\$ 88.4	- 4 %	0 %

Other income: stable Y/Y, down \$3.4M Q/Q

Y/Y Highlights

- Income from sale of mutual funds up \$1.3M Y/Y largely driven by good market performance

Q/Q Highlights

- Income from treasury and financial market operations up \$3.0M Q/Q due to higher net securities gains, as well as a higher contribution from trading activities
- Other down \$5.5M Q/Q, Q4/17 included the \$5.9M contribution from the gain on the sale of the Bank's participation in Verico

(1) Includes net Insurance Income, Leasing Revenues and Other.

Non-Interest Expenses (NIE)

Adjusted NIE (\$ millions)	Q1/18	Q/Q	Y/Y
Salaries and Employee Benefits	\$ 93.7	- 1 %	5 %
Premises and Technology	47.3	4%	2 %
Other	32.1	- 2 %	19 %
	\$ 173.0	0 %	6 %

- Adjusted NIE up 6% Y/Y: mainly due to the acquisition of Northpoint, regular salary increases and higher professional fees to support our transformation
- Adjusted NIE relatively unchanged Q/Q: due to ongoing cost control efforts

Adjusted Efficiency Ratio

Adjusted efficiency ratio improved:

- 260 bps Y/Y

Optimizing Bank Funding Through Well Diversified Sources

Funding (\$ billions)
